

## DRIVE SYSTEMS

### Spiral pivot - three variants

Hidden away, the award winning Spiral Pivot System is the very heart of Louvretec's operating system. Linked to a custom made gear box and driven by Somfy - the world's leading tubular motor manufacturer.

#### 1. MOTOR OVER SPIRAL PIVOT

This tried and tested system has been well proven over many years and continues to be used as standard on Louvretec's Suburban Direct Series Opening Roofs.

MOTOR OVER SPIRAL PIVOT

#### 2. DOWN - UNDER SPIRAL PIVOT

Designed specifically for Louvretec's new generation Super Roofs as the name implies Down-under not only has the pivot operating system hidden from sight, so too is the motor and gearbox.

With neither operating mechanism nor motor to be seen Down-under provides for the cleanest look imaginable. Now available on request on all Opening Roofs.

DOWN UNDER SPIRAL PIVOT

#### CONTROLLER OPTIONS

Refer Section 1 pages 1.xx - 1.xx for range of options.

#### 3. HAND OPERATED SPIRAL PIVOT

Using a custom engineered gearbox with stainless steel crank handle, all Louvretec Opening Roofs are available as a hand operable option in lieu of motorised.

The roofs can be operated with ease, with the crank handle being detachable for storage when operation is complete.
